

# IOS

There's no place like Ios: the beaches are long and sandy and the nightlife is pretty wild. It is a young people's island, perfect for carefree, lazy days and very late nights. The numerous clubs and bars are the center of the vivid night life, which seems to be a big party of young people strolling around, drinking, singing and dancing all night long. The movie "The Big Blue" was shot on Ios. The island also holds many cultural activities and local festivals to which guests are usually invited to join.
