ALONISSOS

Alonissos is the northern island of the Sporades Island Group, the most serene and still quite untouched by tourism which is slowly growing. An authentic island, it is mostly known for its incredible natural beauty and its amazing beaches with their emerald crystal waters. The waters of the island are considered as the cleanest in the Aegean Sea and have been declared a marine park because they are a breeding ground for the rare species of monk seal, the *Monachus Monachus*. Its extreme beauty is also due to its dense forests of pine covering a great part of the island. Holidays in Alonissos are ideal for those seeking calm holidays in a beautiful, unspoiled natural environment.
